

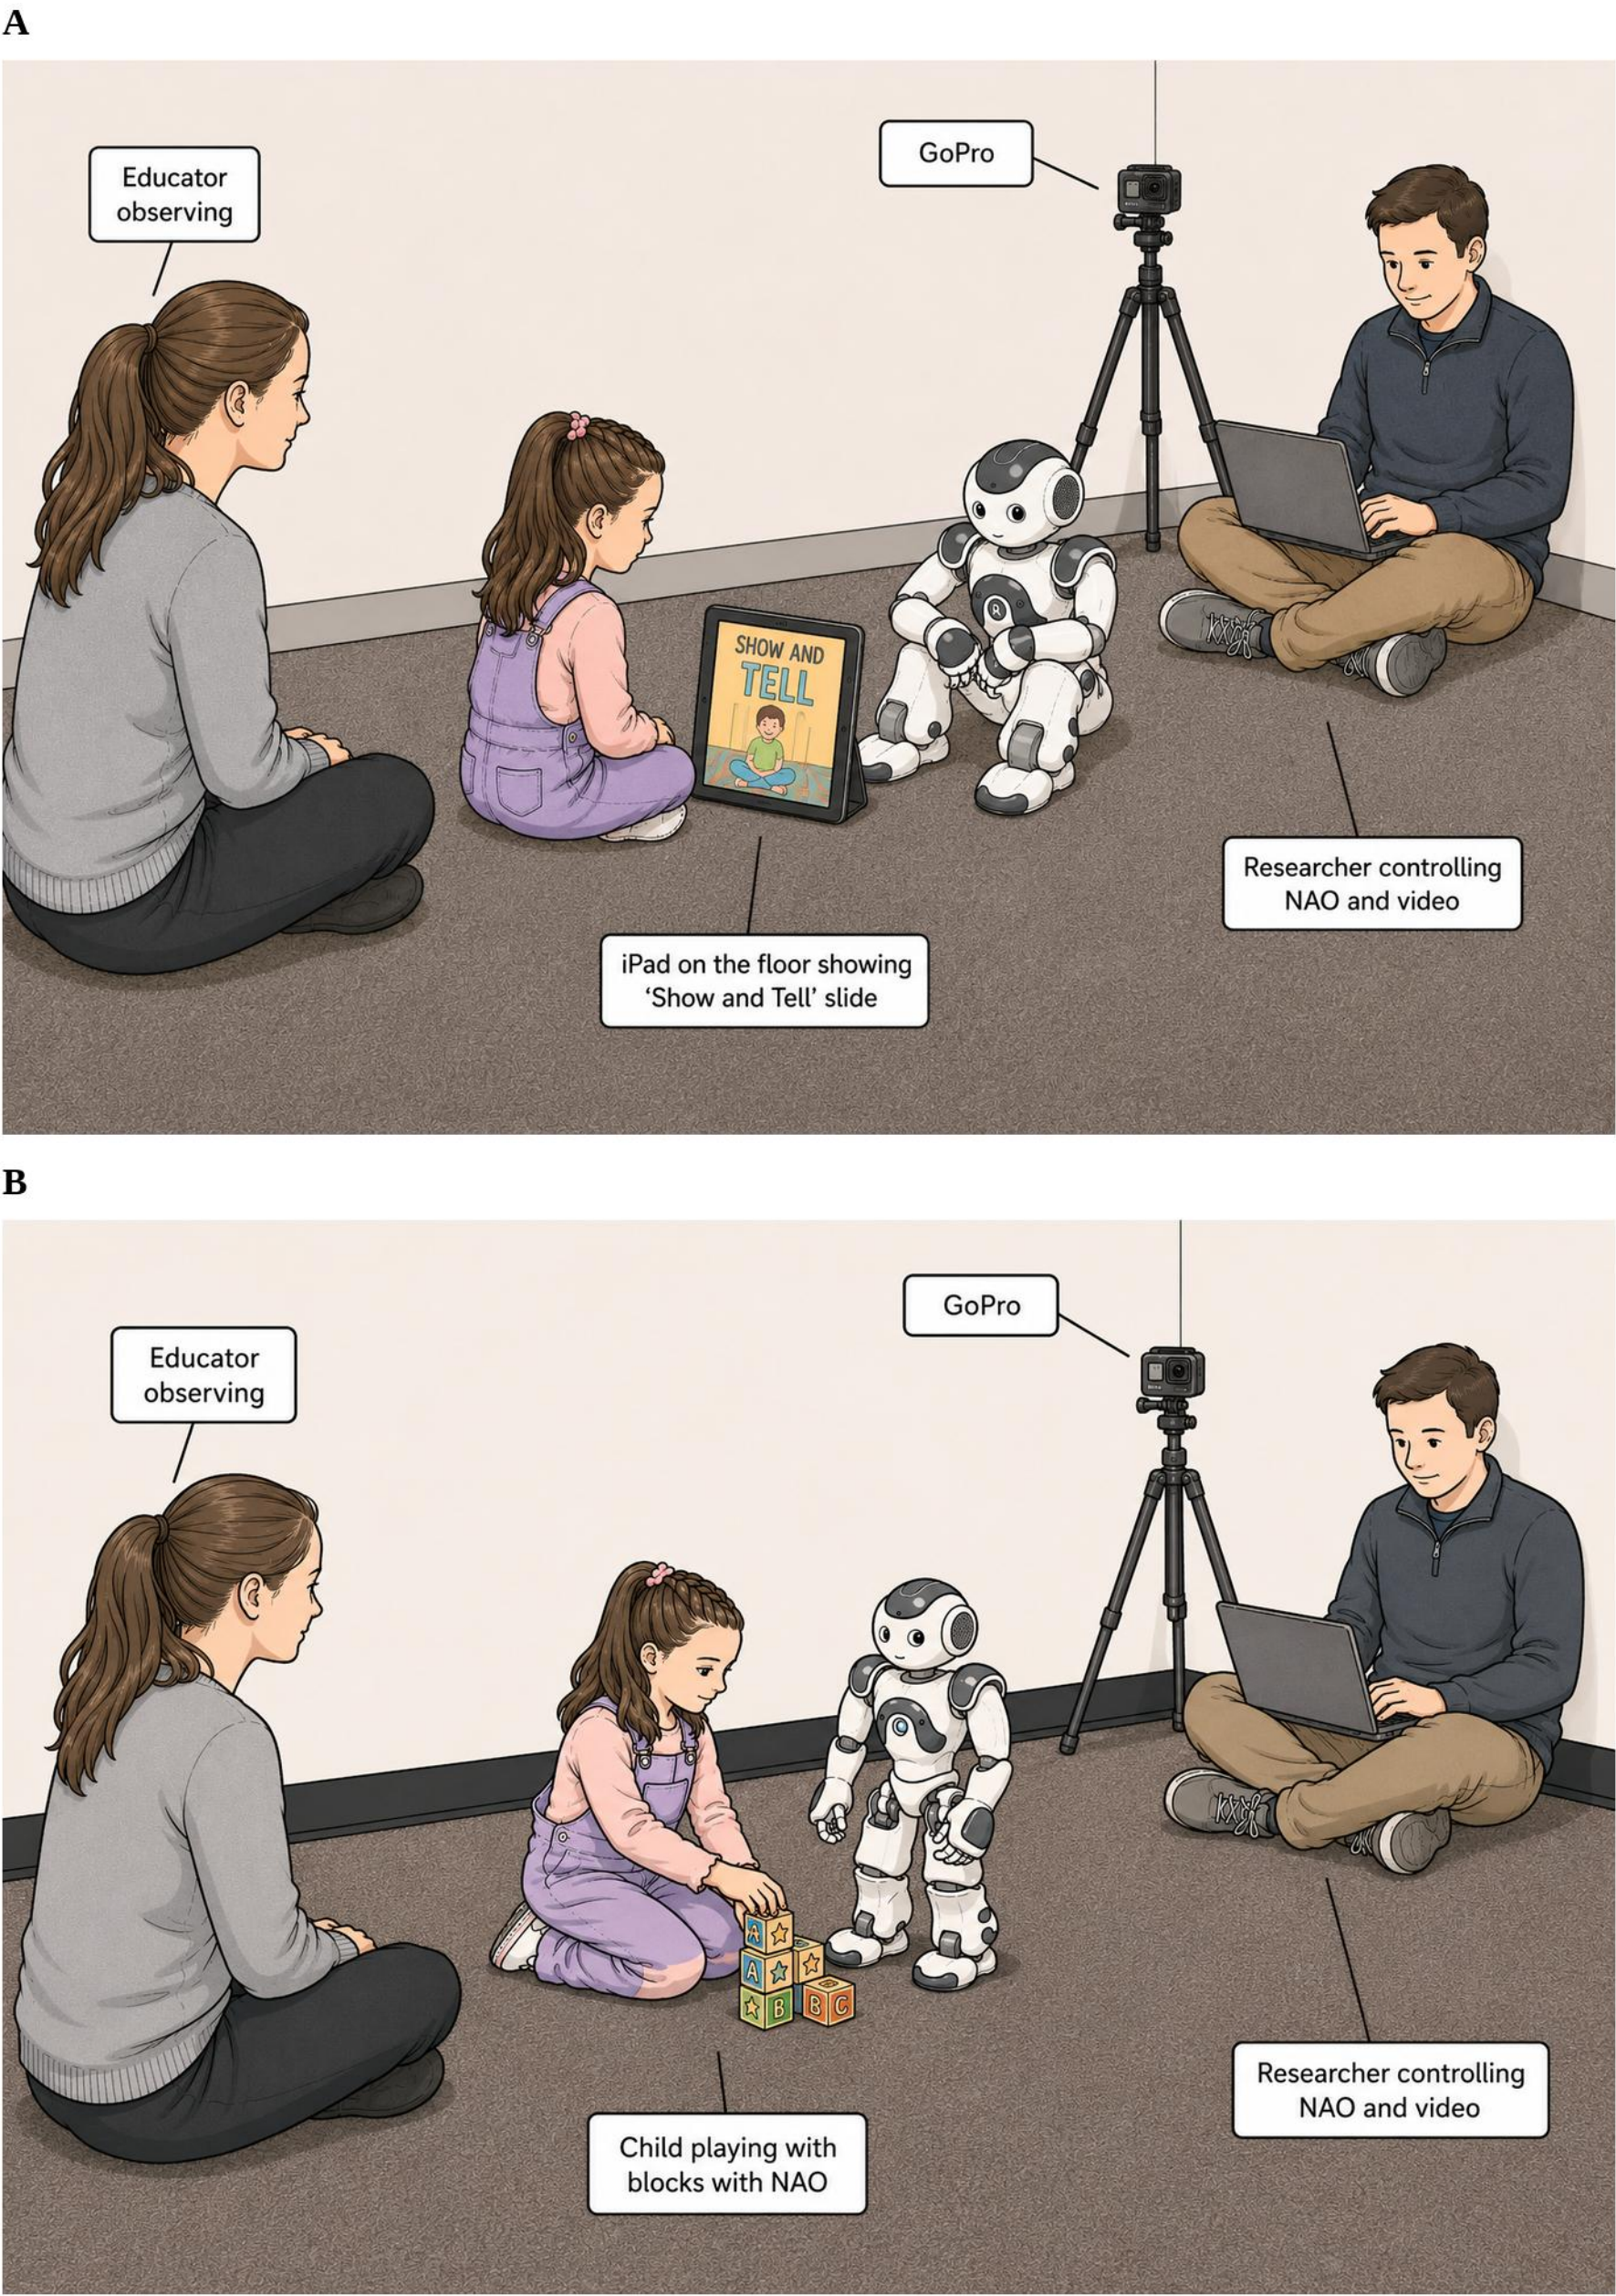

Figure 2
Experimental Setup During eBook Reading and Block Play

Note. Panel A shows the eBook reading phase and Panel B shows the block play phase. The child sat on the floor facing the robot (NAO) and an iPad presenting the “Show and Tell” eBook, and subsequently engaged in block play with the robot. An educator observed the session, a GoPro camera on a tripod recorded it, and a researcher seated against the wall operated the robot and the video presentation. Image generated by Imagine 2 Illustrate (GPT).
